PROFILE

Software Engineer with 3 years of experience in full-stack development (MERN). Skilled in building fast, user-friendly web applications and developing efficient backend systems. Passionate about problem-solving, teamwork, and learning new technologies. Looking for opportunities to grow and contribute to exciting projects.

EXPERIENCE

June 2024 – present **FREELANCE WEB DEVELOPER**

Full stack developer

- Developing a full-stack car marketplace platform connecting buyers and sellers with secure authentication, real-time chat, and advanced search features in Korea
- Developed and deployed [Tezkor24](#), a scalable online food delivery service with a feature-rich admin panel for restaurant management, a user-friendly front panel for seamless ordering, JWT-based authentication, a MongoDB database, RESTful APIs, and a secure, high-performance, and responsive UI.

Dec 2022 – Nov 2023 **IT PARK UZBEKISTAN**

Frontend developer

- Worked with design, product, and back-end teams to develop 3+ web products, collaborated with senior developers in code reviews for optimization, and conducted unit testing while adding features like Google Maps to enhance user experience and functionality.

Aug 2021 – Apr 2022 **ITTRANSITION GROUP**

Intern Frontend engineer

- Developed and maintained front-end code using React to implement dynamic web solutions following company standards, successfully integrated websites with backend services like databases and APIs, and strengthened communication and collaboration skills by working in a team.

PROJECTS

- [tezkor24.shop](#) – Developed both the admin panel and front panel, ensuring seamless restaurant management in Tashkent online food delivery in Tashkent
- [Airfel.com](#) – Worked on a with the team to build an admin panel to manage orders, and seamless customer interactions efficiently.
- [yemak.uz](#) – Worked on creating a user-friendly front panel for providing a better user experience and seamless and secure ordering system
- [oqtepalavash.uz](#) – Developed the front end for an online food ordering platform, ensuring a responsive and user-friendly UI. More projects [here](#)

EDUCATION

2018 – 2022	TASHKENT UNIVERSITY OF INFORMATION TECHNOLOGIES
	Bachelor of Computer Science
Sep 2023 –	INHA UNIVERSITY
Expected graduation May 2025	Master of Digital Business
